MUTHOOT INSURANCE AGENT PORTAL

Backend: JAVA

Frontend: HTML and CSS

Database: MYSQL

Framework: Liferay 7.2

- Developed a web portal for Muthoot Finance Ltd. Through this portal, a Muthoot Agent can issue a policy for a two-wheeler or a four-wheel vehicle.
- Integrated various APIs with Liferay to fetch data from the master and to generate Quotes and Proposals.

EDELWEISS INSURANCE CUSTOMER PORTAL

Backend: Node JS

Frontend: HTML, Handlebars JS and CSS

Database: PostgreSQL, MongoDB

Framework: Liferay 7.0

- Developed a web portal for Edelweiss General Insurance, to let customers buy themselves various kinds of insurance.
- Reduced the insurance buying time to 2-3 minutes.
- Created secure Backend services in Node Js.

VITALITY GROUP

Backend: JAVA

Frontend: FTL and CSS

Framework: Liferay 7.0, Liferay 7.2

- Responsible for providing Liferay support to the Vitality Group. Vitality Group is the largest customer of the Liferay framework.
- Developed a content management portal in which users can edit or view locale-specific content, and implemented Liferay Kaleo Workflow.
- Used Service Now to create and track incidents.

Cholamandalam MS General Insurance

Backend: Node JS

Frontend: React JS

Database: MySQL, MongoDB

- Developed services to consume WSO2 services, store data in DB, generate policy document PDFs and excel sheets.
- Reusable components were created in React.
